

Bamburgh Castle Inn Visitor Charter

We love where we are and the environment around us. Looking after the environment around us means a lot to us here at The Bamburgh Castle Inn and we ask everyone staying and visiting us to help us conserve the environment around us by following our suggestions below... We'd love to hear about your suggestions and tips for protecting our environment too.

Use less & use again Try and buy just what you need for your holiday. You can always buy in more at the local shops. Dig out those bags for life and use them again and reuse plastic bags as bin bags, for packed lunches or carrying wet swimming clothes.

Give your car a holiday Explore Northumberland by foot, hire a bike locally or hop aboard the bus. Just ask a member of staff about timetables.

Keep it local We love supporting our friendly local businesses. There are so many great places to shop and visit nearby. Browse our tourist information area in our reception or ask a member of staff for their tips and suggestions on what to do and where to go! Discounts are available for our guests at attractions including Bamburgh Castle and Alnwick Castle.

Love our natural surroundings The countryside and beaches around us are amazing and so is the wildlife that makes its home there. Help us protect our natural surroundings by taking your litter home with you, using footpaths and cycle ways responsibly and guarding against fire.

Be an eco hero! We already use energy efficient light bulbs and have double glazing to help reduce energy wastage and to keep your accommodation toasty warm. Being an eco hero starts with simple ways in which you can join us to save energy. Switch lights off when not in use. Close windows when you have your heating on. Remember to turn off your heating if you leave your caravan. Unplug chargers for electronic devices and turn the TV off rather than leaving it on standby. Save water by turning off taps when brushing your teeth or when you're doing the washing up.
